

LeishVet is pleased to announce the Second International Congress on Animal Leishmaniosis (ALIVE) in both online and presential formats in Nice, France

The LeishVet Scientific Committee will celebrate the Second International Congress on Animal Leishmaniosis, in a hybrid format, from the charming city of Nice from 18th to 20th April, 2024. The event will reunite once again the top experts in animal leishmaniosis as well as all of the members of LeishVet.

The second edition of ALIVE (Animal Leishmaniosis International Veterinary Event) will have an interesting Scientific Program with the same two streams as the first edition: one focused on research and the other on clinical diagnosis and treatment for this important zoonosis. Furthermore, the participants will have the unique opportunity to join Speakers and members of LeishVet in round table events, to discuss real clinical cases and other aspects related to the epidemiology, diagnosis, treatment and prevention of animal leishmaniosis.

The event will take place at the Hotel Radisson Blu, on the Promenade des Anglais, Nice, just 4 km from Nice Côte d'Azur International Airport and 5 km from the city centre. All activities will take place at the hotel with the exception of the Gala Dinner for which complimentary transport will be provided.

For those that cannot assist presentially, this unique event will also be available online.

All further information about the ALIVE 2 congress is now available on the website www.leishvet-alive.com and on social media. If you have any queries regarding the Conference, please contact us at info@leishvet-alive.com

See you in Nice!
